

Opening new possibilities for open procedures.

Introducing HARMONIC FOCUS® Long Curved Shears.

Bringing the advantages of HARMONIC® technology
to deep access procedures.

Precise

- Curved fine tip for precise dissection
- Minimal lateral thermal spread for dissection near vital structures

Versatile

- Dissects, cuts, coagulates and grasps
- Seals vessels up to and including 5mm as well as lymphatics
- Lightweight aluminum shaft allows deep access into anatomy

Efficient

- With fewer instrument exchanges, you can work more efficiently and maintain focus on the surgical field
- Use of HARMONIC® technology in pancreatectomy saved over 30 minutes as compared to clamp, cut and tie*
